

Chrysler Group LLC Provisionally Approves DeBeer Refinish WaterBase 900⁺ series by Valspar Automotive

Chrysler Group LLC, a worldwide manufacturer of some of the most recognizable automotive brands on the market today, including Chrysler, Jeep, Dodge, and Ram, has provisionally approved DeBeer Refinish WaterBase 900⁺ Series by Valspar Automotive for worldwide use. This approval is based on the PF-10537 specification and applies to all Chrysler Group LLC brands. Every Chrysler collision repair center across the globe can now benefit from DeBeer Refinish WaterBase 900⁺ series coatings.

“Chrysler Group LLC is an impressive force in the global automotive marketplace. After many rounds of extensive testing, Valspar Automotive is proud to announce this approval by Chrysler. Our continued dedication to color, technology and the trust of our customers is prominently displayed in these ongoing Automotive OEM initiatives,” said Carl Wierks, Global Vice President of Valspar Automotive.

Valspar Automotive is one of the leading automotive coatings manufacturers globally including brands such as DeBeer Refinish, Octoral, and more. With over 100 years of experience in automotive coatings, they pride themselves on color excellence, cutting-edge technology and trustworthy partnership.
